

## Front End Technologies Week 7 Coding Assignment

**Points possible:** 75

**URL to GitHub Repository:**

**<https://github.com/FSWEric/JS-Week-7-Coding-Assignment>**

**Instructions:** In VS Code, or an IDE of your choice, write the code that accomplishes the objectives listed below. Ensure that the code compiles and runs as directed. Take screenshots of the code and of the running program (make sure to get screenshots of all required functionality) and paste them in this document where instructed below. Create a new repository on GitHub for this week's assignments and push this document, with your project code, to the repository. Add the URL for this week's repository to this document where instructed and submit this document to your instructor when complete.

### **Coding Steps:**

1. Create a website using only HTML. The website can be anything you like (within school guidelines) as long as it meets the following criteria – website must contain:
  - a. At least 3 pages
  - b. Links to navigate between all pages present on each page
  - c. A list
  - d. 3 images
  - e. 2 different size headers
  - f. A table
  - g. A form

### **Screenshots of Code:**

# PROMINEO TECH

## Well, hello there.

Welcome to my showcase!

Take a look around at the work that I've created over my *nearly 20 years* of graphic design!

**Here are some of the areas in which I work**

- Print
- Vehicle Wraps
- Painting
- Photography
- Motion Graphics

Well, if you clicked here you want to know a bit more about me.

I'm a simple man, I don't posses an engineering degree... oh sorry that's Carlin, eh it works though.

My day to day design job keeps me pretty busy from vehicle wraps to brochures to sticker for FSW students

I really enjoy solving puzzles and working in teams and while that is seriously cliché it is really what I enjoy doing.

If you think you have a graphic puzzle that needs some piecing together I am your guy!
